Subject: another version, see what you think

Today, EPA has partially approved the Washington Department of Ecology's Deschutes TMDL. While Ecology's effort to address water quality issues in the Deschutes River watershed has been sustained and comprehensive, there are parts of the TMDL EPA is going to amend.

Moving forward, EPA plans to coordinate closely with Ecology to ensure (b) (5)

A large rectangular area of the document is redacted with a solid grey fill, obscuring several lines of text. The redaction starts below the first paragraph and extends across most of the page width.

We commit to working with Ecology to protect Washington's water quality and ultimately fully complete a TMDL that works for all Washingtonians
